Semester Grade Point Average (SGPA) is calculated as below:

$$SGPA = \frac{\sum_{i=1}^N \text{Credit for registered course } (C) \times \text{Grade Points earned } (G)}{\sum_{i=1}^n \text{Credit for registered course } (C)}$$

where n is the number of course registered in the given semester.

Cumulative Grade Point Average (CGPA) is calculated as below:

$$CGPA = \frac{\sum_{i=1}^M \text{Credit for registered course } (C) \times \text{Grade Points earned } (G)}{\sum_{i=1}^M \text{Credit for registered course } (C)}$$

where m is the number of course registered upto the given semester.

Equivalent Percentage of marks can be obtained using following formula:

$$\text{Percentage of marks} = (\text{CGPA}-0.5) \times 10$$

Semester Grade Point Average (SGPA) is calculated as below:

$$SGPA = \frac{\sum_{i=1}^n \text{Credit for registered course (C)} \times \text{Grade Points earned (G)}}{\sum_{i=1}^n \text{Credit for registered course (C)}}$$

where n is the number of course registered in the given semester.

Cumulative Grade Point Average (CGPA) is calculated as below:

$$CGPA = \frac{\sum_{i=1}^M \text{Credit for registered course } (C) \times \text{Grade Points earned } (G)}{\sum_{i=1}^M \text{Credit for registered course } (C)}$$

where m is the number of course registered upto the given semester.

Equivalent Percentage of marks can be obtained using following formula:

$$\text{Percentage of marks} = (CGPA - 0.5) \times 10$$

Semester Grade Point Average (SGPA) is calculated as below:

$$SGPA = \frac{\sum_{i=1}^N \text{Credit for registered course } (C) \times \text{Grade Points earned } (G)}{\sum_{i=1}^n \text{Credit for registered course } (C)}$$

where n is the number of course registered in the given semester.

Cumulative Grade Point Average (CGPA) is calculated as below:
